RE: Request for Class II Permissive Change – FCC: SWX-LTUXR

It is hereby requested that Ubiquiti Inc. obtain FCC Class II Permissive Change certification of a radio apparatus on the Ubiquiti Inc. product LTU-XR. The associated FCC: number is listed above.

The Class II Permissive Change certification is to add U-NII-2a and U-NII-2c frequencies bands.

The LTU-XR is a high-performance point-to-multi-point transceiver operating in the 5 GHz WiFi band. The LTU-XR is designed to provide 550 Mbps wireless throughput and allows independent transmit and receive channel configurations to avoid local interference. The LTU-XR has an integrated Bluetooth transceiver for system management control. The LTU-XR is powered from a Model PoE-24-12W-G-WH PoE Power Adapter.

Sincerely,

Mark Feil

Ubiquiti Inc.
