

Bluetooth Remote Pairing

Press the Voice/Microphone Button

Hold the [OK] and [Return] buttons together until the indicator light starts flashing.

Step 1:
Press "OK" and "Return" simultaneously for 8 seconds until the LED begins to flash, indicating that the remote is in pairing mode.

Step 2:
Press the "OK" button again.

Tip: The remote must be paired using the two steps above. The pairing process typically takes about 15 seconds. If pairing fails:
1. Check if the remote is too far from the TV (or TV box).
2. Ensure the battery is functioning correctly and there are no issues with the remote itself.
3. Alternatively, go to "Bluetooth" in System Settings and select "SCC200" for pairing.

Press [OK] to complete the pairing process.

Step 1:
Press "OK" and "Return" simultaneously for 8 seconds until the LED begins to flash, indicating that the remote is in pairing mode.

Step 2:
Press the "OK" button again.

Tip: The remote must be paired using the two steps above. The pairing process typically takes about 15 seconds. If pairing fails:
1. Check if the remote is too far from the TV (or TV box).
2. Ensure the battery is functioning correctly and there are no issues with the remote itself.
3. Alternatively, go to "Bluetooth" in System Settings and select "SCC200" for pairing.

Problem Solving

Warning
Under no circumstances should you attempt to repair the device yourself, as this will void the warranty. If a problem occurs, follow the instructions below on how to resolve the device. If you cannot resolve the issue, please consult your retailer for assistance.

Question	Solution
No television signal	1. Check that the HDMI or AV cable is securely connected. 2. Check that you have selected the correct input source on your TV.
You can't switch on your Smart TV Box	1. Check that the power connector is fully connected to the DC socket on your Smart TV Box. 2. Check that the power supply is stable.
Cannot connect to the network	1. Make sure that the network cable is firmly connected and that the Ethernet cable is working properly. 2. Make sure that the Wi-Fi network is activated and that the security key for the encrypted network is correct. 3. Make sure you have selected the correct IP address settings.
The remote control doesn't respond	1. Make sure the batteries are good. 2. Check that the distance between the remote control and your Smart TV Box is no more than 8 metres.
Some televisions can't show the whole screen.	Configure the display position of your Smart TV Box screen. Settings -> Display -> Display position.

FCC STATEMENT :
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the device and receiver.
-Connect the device into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

FCC Radiation Exposure Statement
The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

S2 PRO

user manual

Attention!!
Use the original HDMI cable and power source.
Non-original cables may cause damage to the device.

Introduction

Thank you very much for trusting and choosing our smart IPTV receiver! It's a pleasure to have you with us. To ensure you have the best possible experience, we've carefully prepared this manual with your comfort and convenience in mind. Be sure to take a look, it will help you make the most of your TV Box and use it in the easiest and most efficient way. Enjoy every detail of this technology made especially for you!

Specification

- Operating System: Android 12.0
- Processor: Quad-core ARM Cortex™-A53
- GPU: G31 Quad-core
- Memory: 2GB DDR3
- Internal Storage: 32GB EMMC
- Supported Video Decoder:
 - H.265 10-bit up to HP Level 5.1
 - 6K 4K2K@30fps (up to 250 Mbps)
- Supported Audio Formats: MP3, WMA, AAC, FLAC, etc.
- Supported Image Formats: JPEG, JPEG, BMP, GIF, PNG
- Connectors:
 - USB 2.0 x1
 - USB 3.0 x1
 - Host and SD/MMC card reader
- Networking:
 - RJ45 100M Ethernet
 - Supports 802.11 a/b/g/n/ac (2.4GHz + 5.8GHz) Wi-Fi
- Audio/Video Output:
 - Composite video output, compatible with all TVs
 - Supports all standard SD/HD/LHD video output formats: 480p, 576p, 720p, 1080p, 6K
- HDMI Output:
 - Supports HDMI 6K@60fps
 - Supports HD Audio (7.1CH)

4		HDMI Cable	1
5		User's Manual	1

Note: Other elements are optional

1

Connection diagram

Wiring diagram

- Connect one side of the HDMI cable to the product interface and the other side to your television.
- Adjust the TV's screen output settings to 720p or 1080p and then switch to the corresponding HDMI component video mode on the TV.

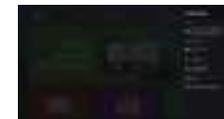

A/V connection

If your television doesn't have an HDMI connection, don't worry, you can connect it using the AV cable. Simply connect one side of the AV cable to the product's interface and the other side to the television.

2

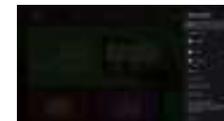

Settings

Move to the [SETUP] icon and press the [OK] button to enter the system settings. See the menu on the icon.

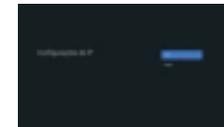

Wi-Fi

Once Wi-Fi is enabled, you will need to select a network name and enter a password. Enter the password. If you are using a standard IR remote control, a keypad will appear on the screen.

Ethernet

Se utilizar um cabo de rede em vez de Wi-Fi, por favor seleccione esta opção [DHCP] em vez.
