Cover Letter for re-use of Test Data

To Whom It May Concern:

The initial application has been granted according to 47CFR Part 15C, 15E for FCC ID: KA2IR882A1; Granted on 04/10/2017.

The new equipment to be Granted in this new application, according to FCC ID: KA2IR2660A1, only differs from the initial version (FCC ID: KA2IR882A1) with the only 7 following points:

1. Flash size/brand change : Nor 16MB to Nand 128MB
2. DDR size change : DDR3 128MB to 256MB
3. The shape of Housing change
4. Different model name : DIR-2660
5. SW update (add new mechanism) : McAfee, SuperMesh, Fota, Ookla(speedtest), Alexa(mydlink), Kwilt, Tz-Location
6. remove "WiFi" button
7. add DFS band (all new and complete test data for those band)

The 7 changes described above do not affect the radio characteristics (802.11a/b/g/n/ac) of the equipment. Consequently, radio test data retrieved from the initial application FCC ID: KA2IR882A1 can be re-used for the FCC ID: KA2IR2660A1 equipment.

However, Based on our knowledge and our engineering judgment of the device design, the changes made, the format and amount of spot-check test data are decided as below,

1. Sample amount: 1
2. Spot-check rule part, frequency band and test items

| FCC Rule Part | Frequency Band | Test Items |
|---------------|----------------------------------|---|
| FCC Part 15C | 2412-2462 MHz | 1. radiated emission (below 1GHz) 2. AC power line conduction with new AC power adapter |
| FCC Part 15E | 5180 - 5240MHz 5745 - 5825MHz | 1. radiated emission (below 1GHz) 2. AC power line conduction with |

| | | |
|--|--|----------------------|
| | | new AC power adapter |
|--|--|----------------------|

We, D-Link Corporation is taking full responsibility to re-use these test data for its new application FCC ID: KA2IR2660A1.

If you have any questions, feel free to contact us. Thank you.

Sincerely yours,
