<p>Pedmore reserves rights of changes</p>	<p>Tips</p> <ul style="list-style-type: none"> ■Bluetooth Signal is easily interfered in the following environment: <ul style="list-style-type: none"> 1. Corroded environment with multiple Wi-Fi signals and Bluetooth Signals. 2. Airport, railway, subway where electromagnetic waves are strong. ■Left earbud is master earbud. When using the earbuds, it would guarantee more stable connection of the paired device is near the Left earbud. ■Current Bluetooth technology cannot guarantee synchronization of pairing and voice playing. Therefore, the microphone of the earphone may be delayed by water, alcohol, etc., when using earbuds. When using earbuds, please be aware of the delay of the microphone. In some cases, it is suggested to use a dry fit-free soft cloth to clean the earphone or the ear by ear.

In order to obtain a more stable and better experience, it is recommended to use mobile phones with Android 6.0, iOS 10.0 or higher OS versions.

How to power on and pair the earphones (step 1)

Power on:

Method 1: Take out the earphones from the stand, they will start up automatically and enter the pairing mode (make sure the stand is charged).

Method 2: Touch the button of the earphone to turn it on (the earphones must not be in the charging case and must be off).

An illustration of a person sitting at a desk, using a stand that holds a laptop and a pair of earphones. The person is holding a controller and looking at the laptop screen. The stand is a circular base with a vertical pole and a horizontal arm holding the laptop. The earphones are hanging from the side of the stand.

Pairing of the main earphone:

Turn on your phone's Bluetooth, search for "PMAU: Qum L" in the available device list, and click on it to complete the pairing of the main earphone.

How to wear

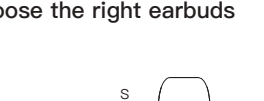

Wearing manner for the left earpiece

Wearing manner for the right earpiece

In order to obtain better noise reduction effect, you can adjust the angle after wearing the earplugs, so that the earplugs fit snugly and firmly in your ears.

Choose the right earbuds

The diagram illustrates the selection of earbud sizes. On the left, three earbud sizes are shown: S (Small), M (Medium), and L (Large). On the right, a side view of a human ear is shown with the earbuds inserted. The earbuds are labeled with 'S', 'M', and 'L' to indicate the correct size for each ear.

Earbuds with appropriate sizes are of great importance to the noise reduction experience, sound quality and comfort. Our earphones are equipped with S, M and L earbuds (M earbuds are installed on the earphones), please try on different sizes of earbuds and choose

How to shut down and charge

About **3.5** hours
Battery life

About **3** times
Mobile charger

The phone will automatically turn off and start charging when it is placed in the stand.

Diagram illustrating the components and usage of the wireless charger:

- Battery indicator:** Located on the top edge of the device.
- Wireless charging area:** The bottom edge of the device, which is placed on the charging pad.
- Wireless charger:** The base or pad used to charge the device wirelessly.

FCF Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) The device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Now, the equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .
