CyberScroll Wireless
New Generation PC Input System

The Genius **CyberScroll Wireless** is a powerful integrated graphic system that includes a cordless no-ball mouse, a graphic tablet and a cordless pen. Forget about a traditional mouse with a ball, the Genius precision no-ball mouse never needs cleaning and eliminates cable tangles. With Roller Patent No. 5530455, it supports Internet and Windows browsing instantly, and includes added-value software for assigning mouse buttons to your favorite keyboard shortcuts.

With the extra value cordless pen and "PenSoft" & MGI "PhotoSuite" software that let you draw, sketch, add a note to an email, or simply sign your name on a document (E-paper functions), you can accomplish your ideas easily.

Features:

- **Cordless no-ball mouse and pen** eliminates cord tangles, and dust accumulation
- Easier to move the cursor, draw, trace, paint, or add your signature to documents
- Supports the **white board** function on Internet NetMeeting
- Scroll through Windows and the Internet without using the scrollbars
- Customizable buttons for frequently-used program shortcuts
- Includes **a pen stand**, and **transparency overlay** for easy tracing
- Includes **MGI PhotoSuite** image editing and **Pensoft** handwriting recognition software
- Supports Windows, 98, 95, and NT4.0
