Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, likely a module, resting on a blue textured surface. The board is positioned horizontally and is flanked by two white plastic connectors with grey braided cables. A black ruler with white markings is placed above and below the board for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The PCB features various electronic components, including a central integrated circuit (IC), several smaller surface-mount components, and solder joints. The board is labeled with 'Solder Board-Component View 2'.
Antenna View	 A photograph of the same green PCB component, showing the antenna view. The board is positioned horizontally on a blue textured surface. Two white plastic connectors with grey braided cables are visible on the left and right sides. The board features various electronic components, including a central IC, smaller components, and solder joints. Two red rectangular boxes highlight specific areas: one on the top edge labeled 'WIFI Antenna' and another on the bottom edge labeled 'BT Antenna'. Red lines connect these labels to their respective boxes on the board. The board is labeled with 'Antenna View'.
