

# LUXUL®

A brand of  **legrand**

## RT-20 Setup Guide

### 1. Setting up your router:

Place your router in a rack or on a desktop

### 3a. Download the Easy Setup App

or search "Luxul Easy Setup App" on:

2. Connect an Ethernet cable from your telco/ISP modem/router to the WAN 1 port of your router. Connect the included power cable from your router to your power source

- 3b. Connect a computer to one of the LAN ports of your router. Open a web browser and go to 192.168.0.1

Login with the default User Name and password

User Name: **admin**

Password: **Unique to device, found on device label**

- ✓ **NOTE:** You will be required to change the default administrator password. The WAN port will be disabled until a new password is selected
- ✓ **NOTE:** If your computer or device isn't set to obtain an IP address automatically, you'll need to set a temporary static IP address on that device. Set the IP address of your computer to an address in the 192.168.0.X range, then set the Gateway/router address to 192.168.0.1

or

## How Do I...

### Restore factory default settings?

To restore factory default settings to your router, press and hold the button labeled 'RESET' until the 'System LED' starts blinking rapidly

### Restart my router?

To restart your router, press and quickly release the button labeled 'RESET'

### Perform advanced configuration?

1. Open a web browser and go to 192.168.0.1 or the IP address you specified during the setup process
2. Enter the login credentials you created during the setup process
