温控器功能说明

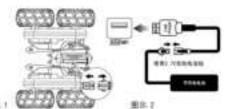

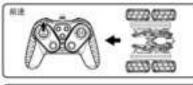

- 1 打开遥控推销前的电池集
- I 按照电池箱内的电极指示主编载入7节1.5 "AAA" 电池。 不可混剂器旧信不同类型的电池。
- 3.直上电池道。

温控车充电说研

- 打开道控车背票的电池面,从电池箱内 取出电池组(图示1)。
- 神川の充地検査検制制定的循係。充电时、 UDSを示け一直要像、充电関域型、 LIDを示が地方(限分2)。
- 3 持电池组安装发电池箱内、并进行选择、 重新直上电池里。

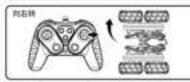

基本操作方法

REMOTE CONTROL FUNCTION

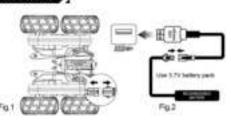

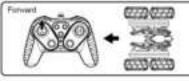

- 1. Remove the baffery cover from the back of controller.
- Install 2 "AA" batteries into the controller, make sure to install hatteries to their correct polarity.
- Do not mix old and new bulliaries or trailing types.
- 3. Replace the battery cover

CAR CHARGING INSTRUCTIONS

- Open the hattery cover on the back of the remote control car and remove the hattery pack from the hattery compartment (Fig. 1).
- Cornect the USB charging colds to the corresponding socket When charging, the LED light is always on. When the charging is freshed, the LED light is off (Fig.2).
- Install the hattery pack into the hattery case, connect it, replace the battery cover, and secure if with a some-driver.

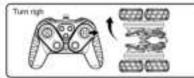

BASIC OPERATION METHOD

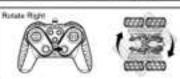

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

MOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement
The device has been evaluated to meet
general RF exposure requirement in
portable exposure condition without
restriction.
