Please follow the instruction to operate.2. Please keep the headphone from heat source, such as radiators, hot air regulators, stoves, or other heat generating instruments. As it is not anti-high temperature.3. Don't jam the ports of the headset, such as charger port, LED port and microphone etc..4. In order to protect your hearing and extend the product speaker service life, it is not recommended to adjust the volume to the maximum level for a long time.5. Whatever reasons damage the headset, please feel free to contact our after-sales staff in time rather than repair by yourself. Otherwise, you will accept without after-sales service.</div> <div data-bbox="1508 1238 1523 1252" data-label="Text"><p>6</p></div> | <p>FCC Warning: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help.</p> <p>This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment . This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.</p> <div data-bbox="1727 1136 1804 1216" data-label="Image"></div> <div data-bbox="1704 1225 1827 1241" data-label="Text"><p>www.havit.hk</p></div> |
