Importance: High

hi,
sorry for the confusion. the BT data was deemed as a PCI by myself.
That is why no data was sent to you. if you need data I can provide it.

Best Regards,

Ronald L. Chernus

Hi Ron

The original grants for the QMNRM-124 are attached. They consist of a BT grant and a part 22/24 grant.
The only issue then is about the BT. A PC can be done using only a document, but in the case at hand a test report may help in justifying the PC.
I will proceed at any rate.
Thanks
