TrueBT Air

No Wire, True Wireless Stereo In-ear Earbuds with Charging Case

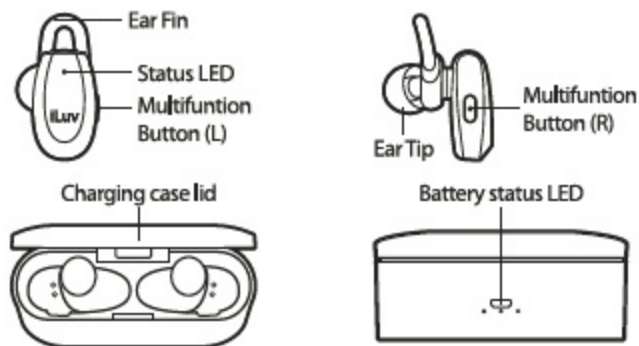

LEVEL OF PROTECTION
FROM WATER INTRUSION

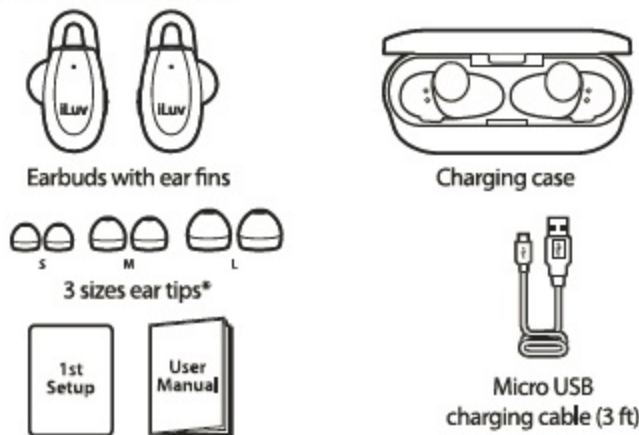

User Manual
- English -

1. Overview of the Product

2. What's Included

* Medium size ear tips are premounted on the earbuds.

3. Attention

Please charge your TrueBT Air before use. Earbuds will be automatically turned on when removed from the charging case.

When the earbuds are charged enough for your use, insert into your ear canals and voice guidance will begin in 5 seconds after removed from the charging case.

IPX4 rated TrueBT Air can resist water splash and sweat but must not be merged inside water or left on wet place long time.

4. Wear Earbuds

TrueBT Air earbuds are designed with angled in-ear tips for each left and right ear to provide comfortable and secure fit. Insert each earbud into your left and right ear, and slightly rotate to fit in your ear canal. Try each of different ear tip sizes.

5. Power On and Pairing

After opening a new package initially, follow these steps. Skip step 5-1 when the earbuds are taken from the charging case. The right earbud is assigned as the master earbud by default and connects to left earbud (slave earbud) automatically.

1. To turn on, press multifunction buttons on BOTH earbuds for 2 seconds

2. Turn on Bluetooth on your mobile device

- a. Go to settings

- c. Scan for and select "iLuv TrueBT Air"

- b. Turn on Bluetooth

- d. Voice Prompt: "Pairing Successful" on right earbud

6. Music Playback

1. Once paired, open music app on your mobile device

2. Click a multifunction button on either of earbuds to play

3. Click a multifunction button again to pause

7. Voice Command

1. Double click a multifunction button on any earbud.

2. Siri on iPhone or Google assistant on Android phone will be activated.

3. Ask question or command with your voice

8. Answer the Call

1. When you receive an incoming call, click a multifunction button on any earbud to answer the call.

2. Click a multifunction button again to hang up

3. Hold the multifunction button for 1 second to decline when you receive an incoming call

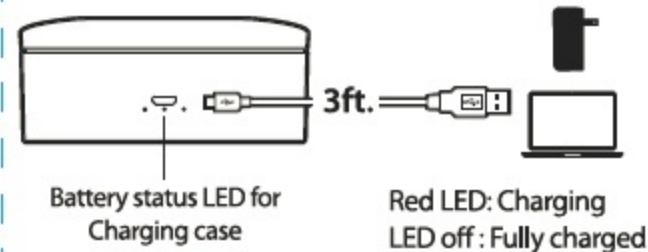

9. Charging

Charging Case

Fully charged charging case can recharge the earbuds up to 5 times and provide up to 30 hours playtime on the go in total.

1. Insert the smaller end of the included 3ft Micro USB charging cable into Micro USB charging port on the Charging Case

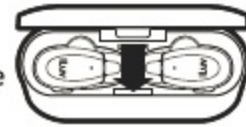

2. Insert the other end of the Micro USB charging cable into a USB wall charger or a USB port on a computer

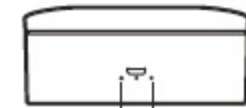

Earbuds

Fully charged earbuds support your active lifestyle with up to 6 hours playtime.

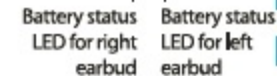

1. Put the earbuds in the charging case and close the lid. The earbuds will turn off automatically and start charging. The cover must be closed so that the earbuds are connected to charging pins securely.

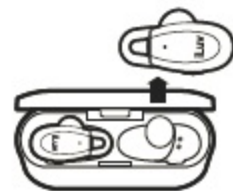

2. While charging, the red LED indicators on the backside of charging case will be on.

3. When fully charged, LED will turn off.

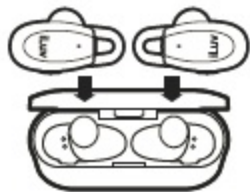

4. When you take the earbuds out of the charging case, the earbuds will turn on automatically.

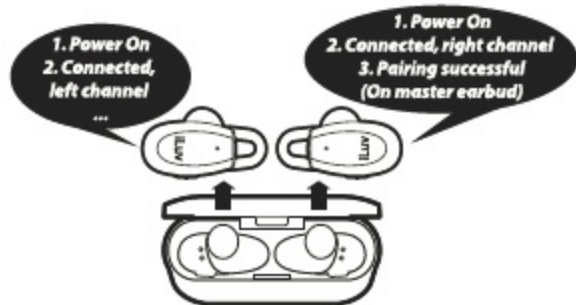

10. Power Off/On

When you use the charging Case

1. Put the earbuds in the charging case and close the lid. The earbuds will turn off automatically and start charging.

2. When you take the earbuds out of the charging case, the earbuds will turn on and connect to the previously paired phone automatically.

When you use multifunction button

1. Press multifunction button on any earbud for 3 seconds to turn off both earbuds.

2. Press multifunction buttons on BOTH earbuds for 2 seconds to turn on the earbuds. The earbuds will connect to the previously paired phone automatically.

11. Reconnecting the Left & Right Channels

In most cases you can reconnect two earbuds by inserting both earpieces into the case.

1. Insert the earbuds into the case and close the lid for about 15 seconds.
2. Remove them from the case so they will reconnect.

Frequently Asked Questions

1. After charging earbuds from the charging case, should I connect them to my phone via Bluetooth again?

No, you don't need to. When you take them out of charging case, they automatically connect to your previously connected device.

2. Should I turn off power before charging and turn on power after charging the earbuds?

No, you don't. When you place the earbuds inside the charging case and close the lid, they will be turned off automatically. Then, they will start charging. When you take them out of the charging case, they will be automatically turned on.

3. What is music play time?

When the earbuds are fully charged, you can play music or talk up to 6 hours which varies depending on the music content and volume. Standby time is up to 100 hours. Since the charging case can charge both earbuds 5 times, you can play music up to 30 hours with 5 times of charge.

FCC statement

This device complies with part 15 of the FCC Rules.

Operation is subject to the following

two conditions: (1) This device may not cause harmful interference, and (2) this device must

accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
