We, **HTC Corporation**, attest the followings for our device FCC ID: **NM82QA4100**

- a. This device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.

- b. This device will always initiate transmission under the control of a low power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.

- c. The transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant.

- d. This device is prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely,
