RE: 30304  
Model/FCC ID: CB2W204HL3  
Form 731 Confirmation #EA507496

In response to your request I have attached an additional drawing showing the label as well as the location of the label on the product housing. I have also attached a representative label drawing in the case that it was not attached the first time around. Please excuse the oversight and have a pleasant day.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeremy P. Bos".
