Reference: Application for BACtrack Skyn, Item SK-15
FCC ID: S8B-Sk-15

We are requesting approval of the above item for original certification under FCC Rule part 15.247.

BACtrack Skyn is a wearable device which includes a sensor designed to detect the presence of alcohol in the skin.

It uses a Bluetooth Low Energy radio (2.402 to 2.480 GHz), operating at 0dBm transmit power. The radio's model number is nRF52832 (Nordic Semiconductors).

Thank you for your assistance.

Sincerely,

Pauline Basaran
