WARNING!

Use of headphones or speakers for extended periods at excessive sound levels may result in permanent hearing loss. Please reduce volume, frequency and time of use.

General guidelines:

Before using headphones or speakers, turn volume down to lowest level. Turn volume on, then gradually adjust volume to a suitable level.

During use:

- Keep volume at a low to medium level.
- When increasing volume, please do so gradually.
- If you experience ringing in the ears or discomfort while using speakers.
- When using speakers, please do not use them for extended periods.
- Please note that during prolonged use of headphones or speakers, your ears may become accustomed to the sound level, which may result in permanent damage to your hearing without any noticeable discomfort.

Safety Information

- Using headphones or speakers will reduce your ability to hear any sounds around you. Please use caution when you are engaged in any activity that requires your full attention.
- If you have a pacemaker or other medical electronic device, please consult your physician before using this product.
- The package contains small parts – keep out of reach of children as these are not a toy and are not intended for play. This product is not a toy – please do not allow children to play with it.
- Never try to dismantle the product yourself or inspect any parts of the product.
- None of the components can be replaced or repaired by end users. If any parts of your product require repair or replacement, please contact your dealer.
- Avoid exposing your product to rain, moisture or liquids to protect against the product or injury to yourself.
- Observe all signs and instructions that appear on electrical device.
- If RF radio signal is to be switched off in designated areas such as hospitals, or aircraft.
- Discourage use of contact Avantree, if the product has been shown to cause injury when an antenna deployment area.
- Do not use in areas where there are explosive hazards.
- Dispose of the product according to local standards and regulations.

Built-in battery case: Please observe the following if the product contains a battery

- Your product is powered by a rechargeable battery.
- The full performance of a new battery is achieved only after two or three complete charge and discharge cycles.
- The battery can be charged and discharged hundreds of times, but it will eventually wear out.
- Unplug your product from the electrical outlet and from the product when not in use.
- Do not use a fully charged battery connected to a charger, since overcharging may shorten their lifespan.
- Left unattended, a fully charged battery will lose its charge over time.
- Avoiding the product in hot or cold places, such as in the summer and winter, will reduce the capacity and lifespan of the battery.
- Always try to keep the battery between 15°C and 25°C (59°F and 77°F). A product with a hot or cold battery may temporarily stop working or have a shorter lifespan. Battery performance is limited in temperatures below freezing.
