Key components visible include a large black integrated circuit (IC) labeled 'IQK15 D9RON', a smaller IC labeled 'HCS740', and several resistors and capacitors. A silver-colored component, possibly a connector or a small antenna, is located at the top. The board is populated with numerous surface-mount components, and the green solder mask is clearly visible.
Solder Board-Component View 8	 This image shows a blue PCB with a ruler placed next to it for scale. The ruler is marked in millimeters (mm) and centimeters (cm). The PCB features a microcontroller unit (MCU) and other surface-mount components. A gold-colored flexible printed circuit (FPC) is attached to the board. The background is a blue textured surface.
