# 1. Health and Safety Information

### General Guidelines

- Electrical equipment may be susceptible to electromagnetic interference. Position the device away from video displays, monitors, radios and other electronic equipment to avoid potentialinterference.
- · Some medical devices may also be affected such as hearing aids and pacemakers. Consult a medical physician or the medical device manufacturer prior to using near the device.
- Do not use your device in hazardous environments where there are explosive gases or explosive products being processed.
- Aftermarket accessories may affect the device performance, the device stability or increase the probability of personal
- Do not attempt to disassemblethe device. There are no interchangeable parts in the casing.
- Do not allow the device or accessories to come into contact with liquid or moisture at any time. Do not submerge the device in any liquid.
- Do not place objects on top of the device. This may lead to overheating of the device.
- The device must be used in ventilated environment.

- · Do not expose the device to direct sunlight or store it in hot areas. High temperature can reduce the life expectancy of the device.
- · Do not allow children to play with the device.
- Use an antistatic cloth to clean the device. Do not use chemical or abrasive cleansers or risk of damage to the casing may occur.
- Use the device within the listed environmental ranges:
- temperature range of -10°C ~ +55°C
- storage temperature range -20°C ~ +70°C
- humidity range 5%~90%.
- Do not use your device during a thunderstorm.
- Do not remove themicro-SIM card unnecessarily. The micro-SIM card issusceptible to static electricity damage.
- Do not place the device alongside item affected by magnetic fields such as computer disks, credit cards, travel cards or other magnetic media. The information contained on the disks or cards may be affected by the device.
- · Do not paint the device.
- Do not drop, throw, or subject the device to other physical trauma.
- Stay Eco-friendly. Recycle the packaging of your device after installation

## Hospital Safety

Medical facilities have various rules for using wireless devices on their premises. Consult with the facility on any questions regarding the use of this device on hospital grounds.

# Road Safety

- Do not use any mobile devices while operating a vehicle.
- Do not store or carry flammable or explosive materials in the same compartment as the device.

# Vehicles Equipped with an Airbag

Airbag deploy with extreme force. Do not place any objectsin the area over the airbag or in the airbag deployment area. If any item is improperly installed in the airbag deployment path while the airbag is jettisoned, serious injury could result.

### Third Party Equipment

The use of third party equipment, cables or accessories, not made or authorized by Moxee, may invalidate the warranty of the device and alsoadversely affect the device performance and stability.

### Efficient Use

For optimum performance with minimum power consumption, do not cover the device with anything. Covering the device may cause damage by operating at higher power levels than recommended.

# RF Exposure Information (SAR)

This device meets the government's requirements for exposure to radiowaves.

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S.Government.

measurement know as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg. \*Tests for SAR are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the

maximum value. This is because the device is designed to

The exposure standard for wireless devices employs a unit of

operate at multiple power levels so as to use only the power required to reach the network. In general, the closer the proximitytoa wireless base station antenna, the lower the power output.

The highest SAR value for this device as reported to the FCC when tested for use in body is 1.33W/Kg and 3.38W/Kg for extremity mode.

While there may be differences between the SAR levels of various devices at various positions, they all meet the government requirement.

The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated in compliance with the FCC RF exposure guidelines. SAR information on this device is on file with the FCC and can be found underthe Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: 2APNR-GD500.

This device has been tested and meets the FCC RF exposure auidelines.

SAR compliance for body operation is based on a separation distance of 10mm between the unit and the human body. Carry this device, at least 10 mm away from your body to ensure RF exposure level compliant or lower to the reported level.

### CTIA Compliance

- a) Do not disassemble or open crush, bend or deform, puncture or shred.
- b) Do not modify or remanufacture. Attempt to insert foreign objects in to the battery, immerse or expose to water or other liquids, expose to fire, explosion or other hazard.
- c) Only use the battery for the system for which it is specified.
- d) Only use the battery with a charging system that has been qualified with the system per CTIA Certification Requirements for Battery System Compliance to IEEE 1725. Use of an unqualified battery or charger may present a risk of fire, explosion, leakage, or other hazard.
- e) Do not short circuit a battery or allow metallic conductive objects to contact battery terminals.
- f) Replace the battery only with another battery that has been qualified with the system per this standard, IEEE-Std-1725. Use of an unqualified battery may present a risk of fire. explosion, leakage or other hazard.
- a) Promptly dispose of used batteries in accordance with local regulations.
- h) Battery usage by children should be supervised.

- j) Avoid dropping the device or battery. If the device or battery is dropped, especially on a hard surface, and the user suspects damage, take it to a service center for inspection.
- k) Improper battery use may result in a fire, explosion or other hazard.
- For those host devices that utilize a USB port as a charging source, the host device's user manual shall include a statement that the device shall only be connected to CTIA certified adapters, products that bear the USB-IF logo or products that have completed the USB-IF compliance

### FCC Compliance(FOR PART 15B/PART 15C)

program.

equipment

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Caution:** Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by

turning the equipment off and on, the user is encouraged to try

to correct the interference by one or more of the following

measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

# 2. Consumer Limited Warranty

KonnectONE, LLC offers you a limited warranty that the enclosed product or products (the "Product") will be free from defects in material and workmanship for a period that expires one year from the date of sale of the Product to you, provided that you are the original end-user purchaser of the Product and provided that your purchase was made from a supplier authorized by the Seller. Transfer or resale of a Product will automatically terminate warranty coverage with respect to that Product. This limited warranty is not transferable to any third party, including but not limited to any subsequent purchaser or abuse, accident, physical damage, abnormal operation, owner of the Product. This limited warranty is applicable only to improper handling, neglect, exposure to fire or liquid; (iii) any end users inthe United States. Product operated outside published maximum ratings; (iv)

Seller will, at its sole and absolute discretion, either repair or replace a Product (for which Seller may use refurbished parts of similar quality and functionality) if found by Seller to be defective in material or workmanship, or if Seller determines that it is unable to repair or replace such Product, Seller will refund the purchase price for such Product, provided that the subject Product (i) is returned to a Seller authorized service center within the one year warranty period, and (ii) is accompanied by a proof of purchase in the form of a bill of sale or receipted invoice which evidences that the subject Product is

within the one year warranty period. After the one year which has been opened, repaired, modified or altered by warranty period, you must pay all shipping, parts and labor anyone other than Seller or a Seller authorized service center. charges. In the event that the Product is deemed un-repairable USE ONLY SELLER APPROVED ACCESSORIES WITH or has been removed from the list of products supported by the SELLER DEVICES. USE OF ANY UNAUTHORIZED Seller, you will only be liable for shipping and labor charges. ACCESSORIES MAY BE DANGEROUS AND WILL INVALIDATE THE DEVICE WARRANTY IF SAID This limited warranty does not cover and is void with respect to the following: (i) any Product which has been improperly ACCESSORIES CAUSE DAMAGE OR ADEFECT TO THE installed, repaired, maintained or modified; (ii) any Product DEVICE. SELLER SPECIFICALLY DISCLAIMS LIABILITY FOR ANY which has been subjected to misuse (including any Product AND ALL DIRECT, INDIRECT, SPECIAL, GENERAL, used in conjunction with hardware electrically or mechanically incompatible or used with accessories not approved by Seller), PUNITIVE, EXEMPLARY, AGGRAVATED, INCIDENTAL OR
