

ATTESTATION – EXHIBIT B

1. CERTIFICATE

The VHF-4000E (Collins Part Number 822-1872-XXX) has been tested in accordance with the requirements contained in the appropriate Commission regulations. To the best of my knowledge, these tests were performed using measurement procedures consistent with industry or Commission standards and demonstrate that the VHF-4000E complies with the appropriate standards. Each unit manufactured, imported, or marketed, as defined in the Commission's regulations, will conform to the sample(s) tested within the variations that can be expected due to quantity production and testing on a statistical basis. I hereby certify that the tests described in this report were performed at my direction and under my supervision, and that the results and test data contained in this report truly and accurately show the performance of the transmitter in the VHF-4000E transceiver. I further certify that the ancillary information contained herein accurately reflects the design, installation requirements, alignment procedures, and operational instructions of and for this transceiver.
