

DELL INC.

One Dell Way Round Rock, Texas 78682 United States

Date: January 31, 2024

FCC Laboratory
7435 Oakland Mills Rd
Columbia MD 21046

SUBJECT: Class II Permissive Change for FCC ID: E2K-QCNCM825, Model: QCNCM825

The product WiFi 7/BT Combo module, has been granted by FCC dated 01/25/2024 under FCC ID: E2K-QCNCM825. The intention of this application is to enable the modular certified FCC ID: E2K-QCNCM825 to be integrated in DELL Portable Computer P189G.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. The Original FCC testing on module under FCC ID: E2K-QCNCM825 was performed with an antenna of same type, higher gain, and the antenna was connected to the module in an open environment. The current host platform under application uses an antenna with lower gain and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary. Software security remains unchanged from the original application.

A handwritten signature in black ink that reads "William Wei".
