

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a yellow printed circuit board (PCB) with various electronic components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board spanning from approximately 10 mm to 100 mm. The components on the board include two push buttons labeled 'SELECT' and 'STA-CANCEL', two potentiometers labeled 'K1' and 'K3', and several resistors. Text on the board includes 'HK-WIFI-XS', '20220324', and 'REV:3.1'. There are also labels for 'WIFI' and 'WIFI' at the bottom right.
Solder Board-Component View 2	 A photograph of the same yellow PCB from a different angle, showing the underside. The board is placed on the same blue textured surface next to the same black ruler. The ruler shows measurements in millimeters, with the board spanning from approximately 10 mm to 100 mm. The underside of the board shows various solder joints and components, including a small white component in the center.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) populated with various electronic components. The components include a large black electrolytic capacitor, several smaller capacitors, integrated circuits, and a yellow transformer. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 4	 A photograph of the same green PCB from a different perspective, showing the underside. The board features numerous solder joints, through-hole components, and a black wire connected to one of the pins. It is positioned next to the same black ruler on the blue textured surface.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) component, labeled 'REV2.1' and 'HK-WIFI 20220423', resting on a blue textured surface. A black ruler with white markings is placed vertically to the left of the board, showing measurements from 0 to 70 mm. The board features various electronic components, including a large square chip, several smaller components, and a circular cutout. The text 'CN1' is visible on the left side of the board.
Antenna View	 A photograph showing the internal components of a device, specifically the antenna area. A red box highlights a small component labeled 'WIFI /BT Antenna'. The device has a black plastic housing. A blue battery is visible on the left side, and a green component is visible on the right. A black cable is connected to the top of the device.
