

# Bone Conduction Headphone

## WATERPROOF USER MANUAL

Add a little magic to your life  
A Safer way to hear sound

1

### 1. How to wear it

Place wrap around the head and behind your neck with transducers resting on the bone in front of your ears, not on your ears.

**Note:** if headphones do not fit properly, use the elastic loop attached in the package, to adjust headphones according to head size.

### 2. How to Charge

Connect the headphone to your PC via the Micro USB Cable attached in the package. The headphone will be fully charged in 2 hours. The LED indicator will be red during charging, and turns into blue when fully charged.

**Note:**

1. It is strongly recommended to fully charge the headphone before first time usage.
2. The headphone will not work during charging.
3. It is recommended to charge once each month to extend the battery life if headphones are not used for a long time.

2

### 3. Bluetooth pairing

1. If the headphone pairs automatically with other devices, simply long press the Play button for 6 seconds (Headphone should be ON) or long press the Power button for 9 seconds (Headphone should be OFF) until the LED flashes in blue/red to turn the headphone into manual pairing mode.

2. In the Bluetooth settings of your mobile phone or other device with Bluetooth function, search for Bluetooth devices, and select "Bluetooth headphone".

-The headphone will automatically reconnect with a device that was previously paired in approximately 10 seconds. The LED indicator will slow flash in blue when paired.

### Attention:

1. If out of range while connected to a device (more than 33 feet/10 meters). The headphone will disconnect from the device. Once it's back within the valid range, it will reconnect automatically. However, if the headphone is disconnected for a long time (more than 3 minutes), you may need to press call/play button on the headphone, to reconnect the device.

2. If the paired device is turned off while connected to the headphone, it will disconnect. When you turn the device on again, just press any button on the headphone to reconnect.

3

### 4. LED Indicator

| Color                                     | Status                                                                                                                       |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| Red (flash)                               | Low power                                                                                                                    |
| Red (solid)                               | charging                                                                                                                     |
| Blue (solid)                              | Charging complete                                                                                                            |
| Blue and Red (flash)                      | Pairing                                                                                                                      |
| Blue (quick double flash every 2 seconds) | headphone and the paired device are not connected. The device may not turn on, or their distance are more than 33 feet (10m) |
| Blue (quick once flash every 5 seconds)   | Connected, making a call or playing audio                                                                                    |

### 5. Limited Warranty

The ~~ESOTIC~~ Product is covered by a limited one-year warranty policy. If the product suffers from a manufacturing defect, the customer will receive a replacement if claimed within one-year the purchase date. Otherwise, the product will be inspected for possible repair options. The product will be either be repaired and returned free of charge, or replaced. All repair services past the one-year warranty period will be charged.

**Important:** This limited warranty DOES NOT COVER normal wear and tear; accidents; damage during transit; misuse, abuse or neglect. Attempting to disassemble the unit will void the warranty.

4

### 6. Storage and Maintenance

1. Please put the headphone in dry places and protect from sunlight. Working temperature is 0~45°C (32~113°F). Battery life may decrease while working in too cold/hot/wet environment.
2. After long time storage, please charge before using.
3. Do not put the headphone in extreme high/low temperature environment.
4. Do not charge the headphone in wet environment.

### 7. Basic Operation

| Operation                        | Earphone control                                    | Tone |
|----------------------------------|-----------------------------------------------------|------|

### 7. FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.  
Increase the separation between the equipment and receiver.

6

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

### RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
