

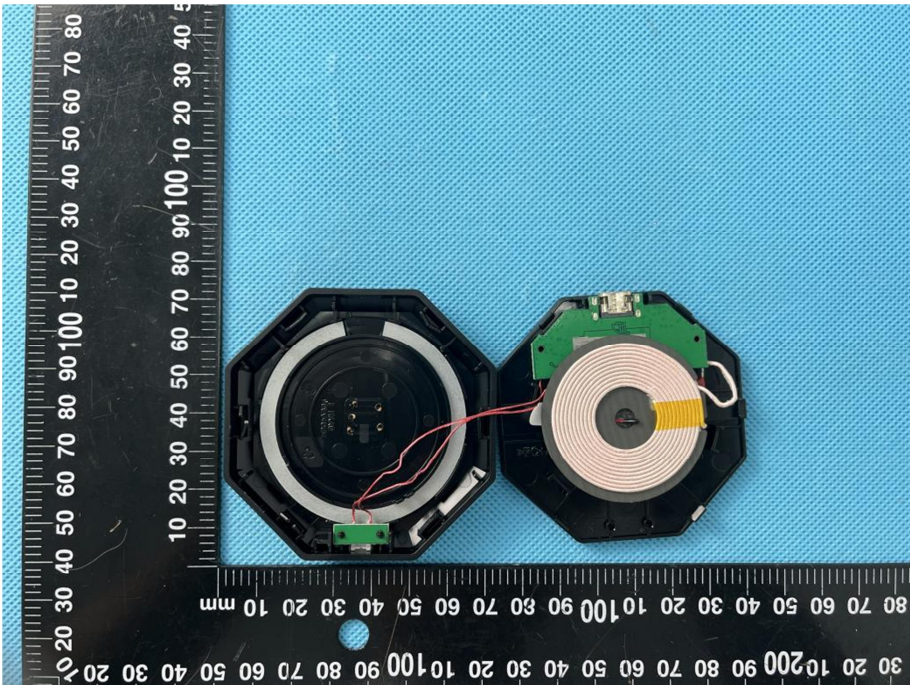

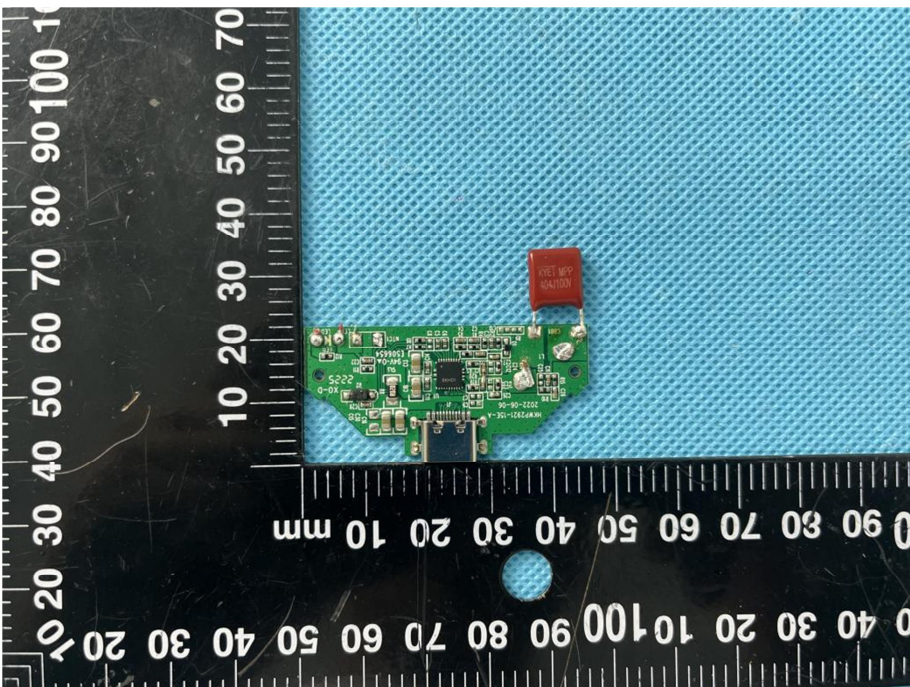

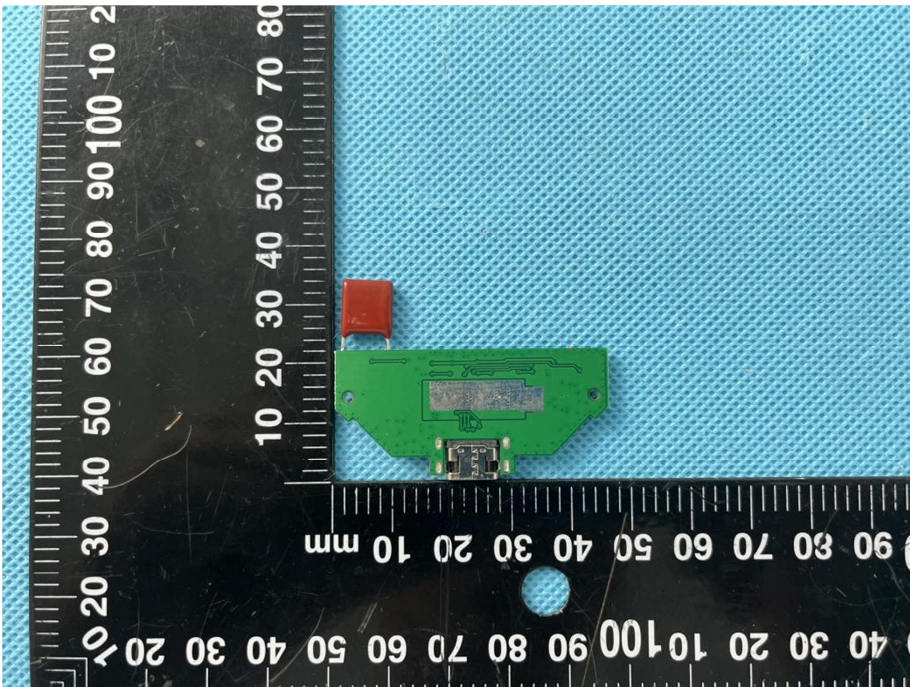

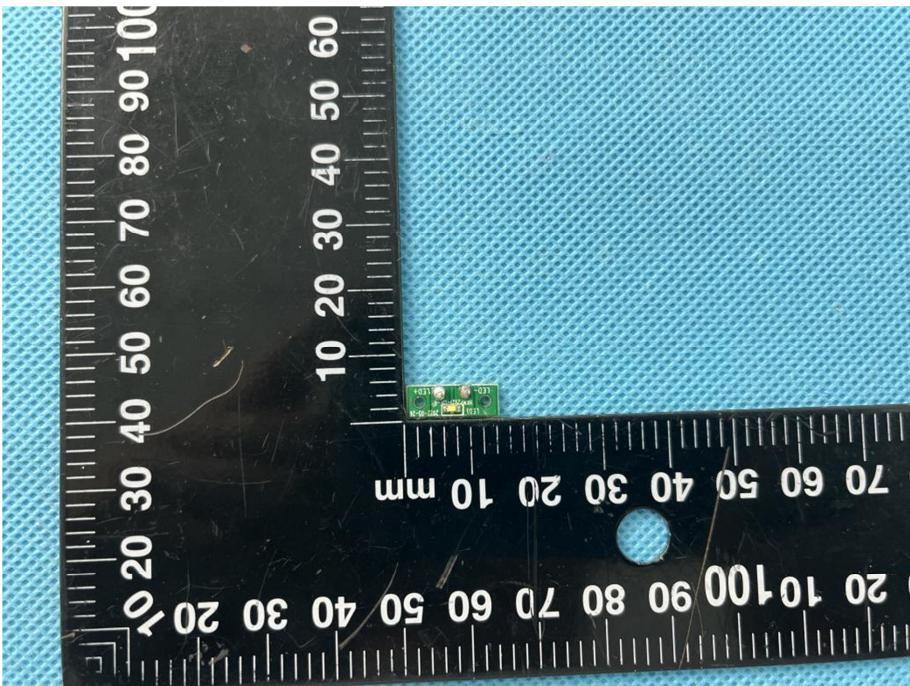

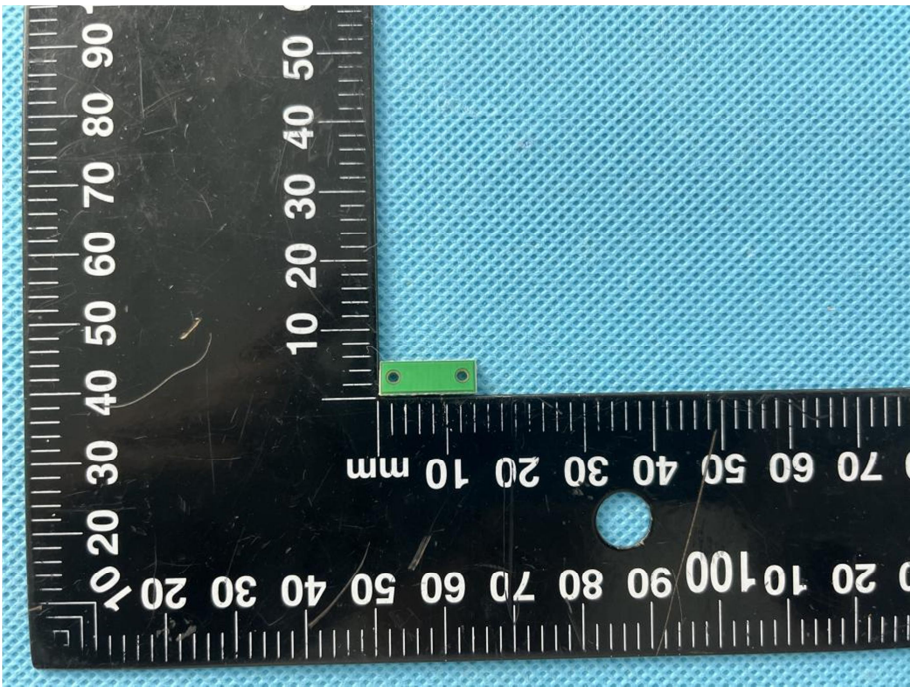

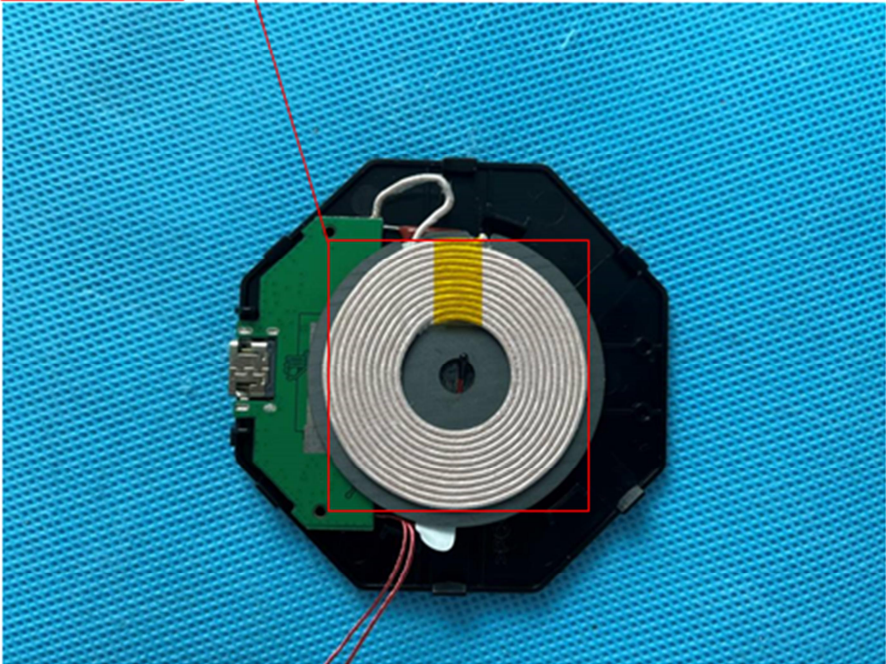

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. The housing is black and octagonal. The internal board is green and features a large, circular, multi-layered inductor. A red wire is connected to the board. The components are placed on a blue textured surface next to a black ruler with white markings in millimeters.
Solder Board-Component View 1	 A photograph showing a close-up of a green printed circuit board (PCB) component. The board is populated with various electronic components, including a red rectangular component labeled "VET MP 1000". The board is placed on a blue textured surface next to a black ruler with white markings in millimeters.

Solder Board-Component View 2	 A photograph showing a green printed circuit board (PCB) component with a red rectangular component soldered to it. The assembly is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings. The ruler indicates the component is approximately 30 mm wide and 15 mm high.
Solder Board-Component View 3	 A photograph showing a small green PCB component with several small electronic components soldered to it. The assembly is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings. The ruler indicates the component is approximately 15 mm wide and 5 mm high.

Solder Board-Component View 4	 A photograph showing a small green component with two solder points on a blue textured surface. A black L-shaped ruler is placed next to it for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10).
Antenna View	Coil Antenna  A photograph of a circular coil antenna assembly. The coil is made of many turns of silver wire on a black substrate. A yellow rectangular label is attached to the coil. A red box highlights the coil area, and a red line points from the label 'Coil Antenna' to this box. The assembly is mounted on a green PCB with a USB connector and other components visible.
