**RE: Certification Application**

Model: NINA-B221, NINA-B222  
IC: 8595A-NINAB22  
FCC ID: XPYNINAB22

**Declaration of Product Family Equality**

To whom it may concern:

We, u-blox AG, hereby declare that the product versions described below are identical.  
Product Marketing Name: NINA-B221 and NINA-B222

- All RF-related components are identical and unchanged
- The printed wiring board have identical layer stack-up and dielectric properties
- Impedance controlled traces and other RF-related parts of the layout are identical
- The differences between the product versions are:
  - NINA-B221 has its RF-port presented at a solder land to be connected to an external antenna connector using the external antenna reference design.
  - NINA-B222 has its Printed Wiring Board extended by 3.4 mm to host an internal antenna. The internal antenna of NINA-B222 is connected to the module RF-port via a micro strip.

Thank you for your attention in this matter.

Yours Sincerely,

---

Olof Viklund  
Senior Engineer, u-blox
