#### CAUTION

- Avoid exposing the speaker box to moisture. If they are set up outdoors, be sure they are under cover.
- Do not use or store the equipment near wet or damp places. It may cause a malfunction or shock hazard.
- If the power cord is broken, it must be replaced by the manufacturer or service agent or qualified personnel to avoid risks
- To reduce the risk of fire or electric shock do not expose this equipment to rain or moisture.
- Clean only with a soft, dry cloth

#### CAUTION:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) this device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
