

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a white plastic housing. A green printed circuit board (PCB) is visible, connected to a white cable. The housing is open, revealing the internal components. A ruler is placed below the housing for scale, showing measurements in millimeters.
Solder Board-Component View 1	 A close-up photograph of the green PCB, showing various electronic components and solder joints. A white cable is connected to the board. A ruler is placed below the board for scale, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph showing the underside of a circular electronic component, likely a wireless charger, with a white cable attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component has a red square component and several small gold-colored components.
Antenna View	 A photograph showing the top of the circular electronic component, focusing on the copper-colored spiral antenna. A red box highlights the antenna area, and a red line points to a label "Wireless Charger Antenna". The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
