RE: FCC ID: QMNRM-20_ATCB001364

Attention: Andreas Gillmeier

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that while you have provided band edge compliance data for the CDMA mode, it does not appear that you have provided band edge compliance data in the AMP mode. Please provide data (plots) showing band edge compliance in the AMPS mode of operation.
2. Please note that the 731 frequency range for AMPS is not correct according to the accepted FCC frequency chart. The frequency range shown for AMPS on the 731 is that typically used for TDMA systems. Accepted AMS frequency ranges listed on the grant is 824.73MHz to 848.19. Please explain and or correct as necessary.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
