RE: Letter of Attestation

FCC: 2ADAL-B001

Model #: B001

To whom it may concern,

Catapult hereby attests that the above-mentioned model's transmit frequency and power can be set only during manufacture or by an authorized Catapult technician, but not by an end-user. In addition to that, only authorized Catapult software can be installed in the device and the software cannot modify the configured frequency or power.

Sincerely,

DocuSigned by:
