EUT – Front View

EUT – Rear View

EUT – Top View

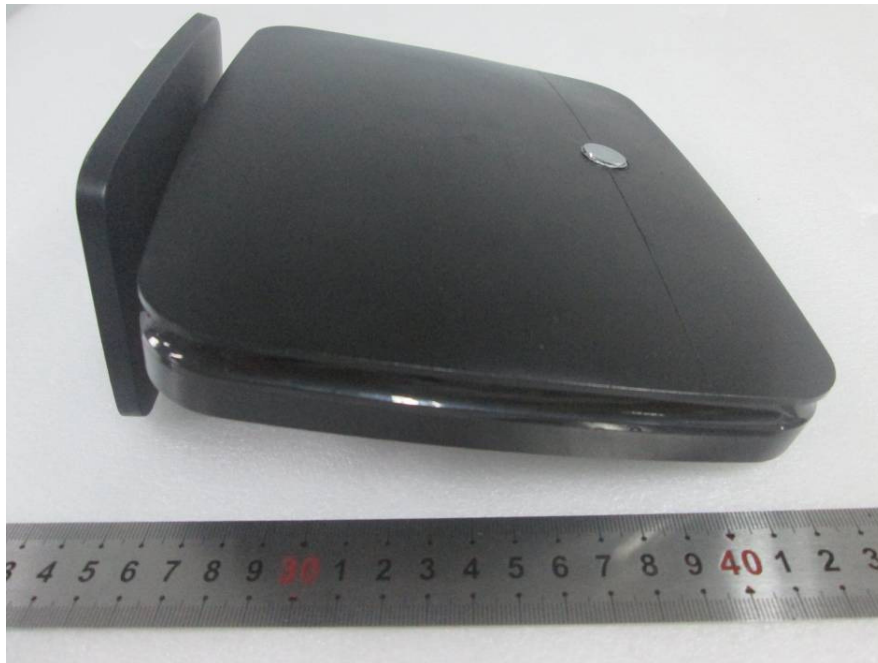

EUT – Bottom View

EUT – Left Side View

EUT – Right Side View

EUT – Adapter View

A top-down photograph of a black, rectangular switching adapter. A black power cord is coiled to the left of the unit. The bottom of the adapter features a standard two-prong electrical plug. A yellow measuring tape is positioned horizontally below the adapter, showing measurements from approximately 98 cm to 107 cm.

EUT – Adapter Label View

A bottom-up photograph of the same black switching adapter, highlighting its label and electrical plug. The label contains the following information:
DVE Switching Adapter
INPUT: 100V-240V~50/60Hz 1.0A
OUTPUT: 5VDC 1.0A
Safety symbols include a square symbol, a triangle symbol, and the CE mark.
Additional markings include "UL ENEC", "PSE", "E130824", and "Made In China".
The two-prong electrical plug is visible on the left side. A yellow measuring tape is placed below the adapter, showing measurements from approximately 99 cm to 106 cm.
