Subject: FW: FCC Attestation/Acknowledgement for 1530 Master Device

Mark,

Please refer to the attestation/acknowledgement from Greg below. Kindly help to fast track the grant.

Regards
Cyril

Subject: RE: FCC Attestation/Acknowledgement for 1530 Master Device

Hi Cyril,

Yes, I understand the U-NII-1 Filing requirement in 47 CFR 15.407(j) and will file this with the FCC as soon as we receive the Grant for the SR1530.

Please let me know if anything additional is required at this time.

Thank you,

Greg Hansen

Subject: FCC Attestation/Acknowledgement for 1530 Master Device

Greg,

As discussed, need your help with providing an attestation letter (or email acknowledgement) with respect to 1530 (Master device, being certified under NEW FCC rules).

Basically, the letter (or email acknowledgement) should indicate that we understand and acknowledge the following prior to submission to FCC.

15.407(j) - Please be aware of the following requirement that Vivint will need to manage once approval is received: *“Operator Filing Requirement:* Before deploying an aggregate total of more than one thousand outdoor access points within the 5.15–5.25 GHz band, parties must submit a letter to the Commission acknowledging that, should harmful interference to licensed services in this band occur, they will be required to take corrective action. Corrective actions may include reducing power, turning off devices, changing frequency bands, and/or further reducing power radiated in the vertical direction. This material shall be submitted to Laboratory Division, Office of Engineering and Technology, Federal Communications Commission, 7435 Oakland Mills Road, Columbia, MD 21046. Attn: U–NII Coordination, or via Web site at <https://www.fcc.gov/labhelp> with the SUBJECT LINE: “U–NII–1 Filing”.

Regards
Cyril
