

Solder Board-Component View 10	 A photograph of a green printed circuit board (PCB) and a small black integrated circuit (IC) component. The PCB is labeled "DS-24GFBT-A1" and "2021.03.01". It features various electronic components, including resistors, capacitors, and a microcontroller. The IC component is a small, rectangular package with a gold-colored pin header. Both are placed on a blue textured surface next to a black ruler with white markings in millimeters.
Solder Board-Component View 11	 A photograph of the same green PCB as in View 10, but without the IC component. The PCB is labeled "DS-24GFBT-A1" and "2021.03.01". It is placed on a blue textured surface next to a black ruler with white markings in millimeters.

Solder Board-Component View 14	 A photograph of a small, black, rectangular component with a central slot and two circular holes, resting on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom.
Solder Board-Component View 15	 A photograph of a blue cylindrical battery with a white connector and red and black wires, resting on a blue textured surface. A black ruler with white markings is positioned below the battery, showing measurements in millimeters. The ruler is oriented vertically, with the 0 mark at the top and the 100 mark at the bottom. The battery has the following text printed on it: "ICR 18650 2000mAh 3.7V / 4Wh" and "Certificate Number Mh62466 21AB".
