

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer is placed on a wooden desk. To its right, on the floor, is a power supply unit with various cables connected. Further right, a long wooden table serves as the test surface. Two bright, circular light sources are positioned above the table, illuminating the area. The background is a plain wall.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are covered with white, square-shaped electromagnetic shielding tiles arranged in a grid pattern. In the center of the chamber, a yellow test fixture is mounted on a blue metal frame. The floor is a light-colored, reflective surface. A yellow and black striped safety line is visible on the floor.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
