Re : Confidentiality for internal Photos

Bologna, 12/05/2005

Dear Sirs,

This communication asks you for holding the product internal photos confidential in order to avoid their publication on FCC Site.

Please look at the document "Datalogic-sls.pdf" (extracted from Datalogic Quality Assurance Manual, at page 29 subchapter : material supply ) . You can see that we do not sell to general public our products and materials. Even in the case in which we sell directly , the customers are other companies or societies. Therefore generic public cannot have direct access to the product, and the possibility to open it and look inside. On the other hand opening our products needs qualified personnel and special tools to disassemble them.

Yours Faithfully,

A handwritten signature in black ink, reading "Ruggero Cacioppo".
