

# FCC ID Label Location Justification Letter

Date: 2024-07-26

Equipment Authorization Division  
Office of Engineering and Technology  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

Ref: FCC ID: 2AIDW-ZZ-H-1-003

Dear Sirs:

**Shenzhen Zero Zero Infinity Technology Co., Ltd.** requests acceptance of the labeling proposal described below for PoC Radio bearing FCC identifier: 2AIDW-ZZ-H-1-003.

The subject HOVERAir X1Smart are compact handheld models as shown in figure 1, authorized under 47CFR Part 15 Subpart C for this mobile services.

Figure 1.

Because this HOVERAir X1Smart device housing is detachable, there is extremely limited space available to attach the required label carrying the FCC identifier. For this reason, **Shenzhen Zero Zero Infinity Technology Co., Ltd.** proposes placing the label carrying the FCC identifier inside the non-detachable housing compartment as shown in figure 2.

Figure 2.

The consumer packaging for these models includes the battery pack as a separate item, NOT installed on the radio. As such, the FCC identifier will be readily visible to the user before the battery pack is installed and whenever the battery pack is removed or replaced.

In this location, the label will also be protected from physical abuse and remain readable for the anticipated life of the device.

The consumer packaging for these models is a "gift box" which does not allow the transceiver to be seen at time of purchase. In order to meet the requirements of 47CFR Part 2.925 (d), **Shenzhen Zero Zero Infinity Technology Co., Ltd.** will add the FCC identifier "2AIDW-ZZ-H-1-003" to the outside of the consumer "gift box" packaging.

Thank you for your attention to this matter.

Regards,

*Yuansheng Xia*
