

Solder Board-Component View 5	 A photograph showing the solder board component from View 5. The component is a long, thin, black PCB with two gold-plated connectors at each end. It is placed on a blue textured surface. A vertical ruler on the left shows centimeters from 1 to 9, and a horizontal ruler at the bottom shows millimeters from 1 to 17. The component is positioned between the 4 cm and 5 cm marks on the vertical ruler and between the 4 mm and 10 mm marks on the horizontal ruler. The PCB has the following text printed on it: "LOCKLY", "PGD228FN... PCB3(C08)", "RVE-A01 2021.07.01", "WAGP", "S1-3", "R04S", "E128784", and "2238".
Solder Board-Component View 6	 A photograph showing the solder board component from View 6. The component is a long, thin, black PCB with gold-plated pads at each end. It is placed on a blue textured surface. A vertical ruler on the left shows centimeters from 1 to 8, and a horizontal ruler at the bottom shows millimeters from 2 to 16. The component is positioned between the 1 cm and 2 cm marks on the vertical ruler and between the 4 mm and 10 mm marks on the horizontal ruler.

Solder Board-Component View 7	 A photograph of a black printed circuit board (PCB) component, labeled 'DME2', resting on a blue textured surface. The component is irregularly shaped with several circular cutouts and soldered components. It is positioned between two rulers for scale. The vertical ruler on the left shows centimeters from 1 to 10. The horizontal ruler at the bottom shows millimeters from 2 to 18.
Solder Board-Component View 8	 A photograph of the same black PCB component, labeled 'Locay', from a different perspective. It shows the underside or a different side of the component, highlighting the solder joints and component layout. The component is again placed between two rulers for scale. The vertical ruler on the left shows centimeters from 1 to 10. The horizontal ruler at the bottom shows millimeters from 1 to 18.

Solder Board-Component View 9	 A photograph showing a circular solder component on a blue textured surface. A vertical ruler is placed to the left of the component, and a horizontal ruler is placed below it. The vertical ruler shows markings from 1 to 4 cm, with millimeter and 0.5 mm increments. The horizontal ruler shows markings from 1 to 8 cm, with millimeter and 0.5 mm increments. The component is a small, circular, metallic-looking ring.
Solder Board-Component View 10	 A photograph showing a small, circular, black electronic component on a blue textured surface. A vertical ruler is placed to the left of the component, and a horizontal ruler is placed below it. The vertical ruler shows markings from 1 to 5 cm, with millimeter and 0.5 mm increments. The horizontal ruler shows markings from 1 to 10 cm, with millimeter and 0.5 mm increments. The component is a small, circular, black electronic component with a white connector at the bottom.
