2-in-1 Wireless Charger

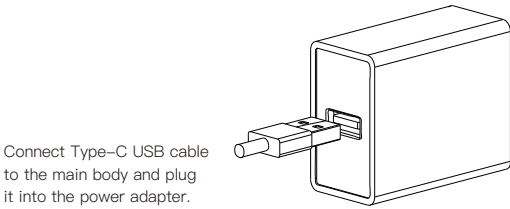

Thank you for purchasing the 2-in-1 Wireless Charger.
Please read the manual carefully before using the product.

Product Outline

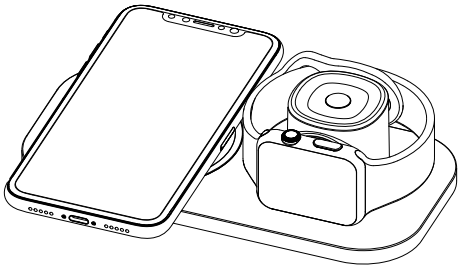

Instructions

1. USB Cable Connection

Connect Type-C USB cable to the main body and plug it into the power adapter.

2. Charging

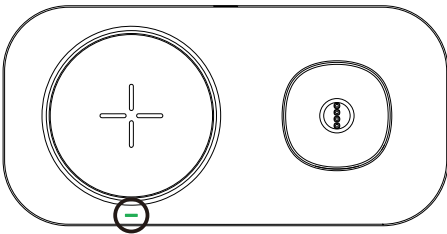

Place both your phone and Apple Watch on the wireless charger. Make sure they are well located in the charging area of the wireless charger.

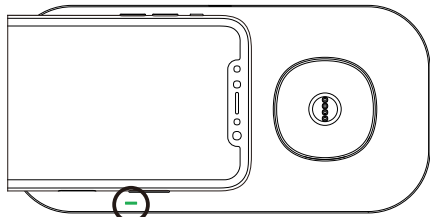

3. LED Indicator

3.1. Qi Wireless Charger

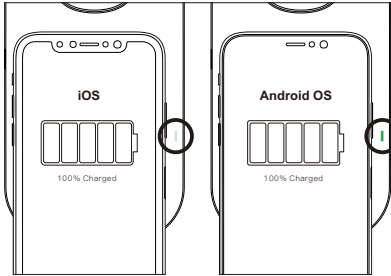

When the phone is charging, the LED Indicator on Qi wireless charger will light up to show charging status:

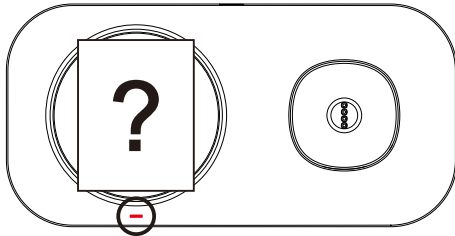

1) Standby Mode - light is on with green color

2) Charging Mode - light will flash for 5 times and turn off

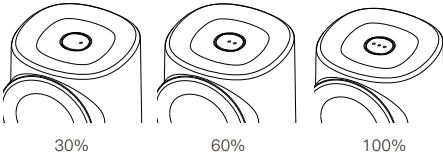

3) Fully Charged - iOS: without LED light; Android OS: light is on with green color

4) Foreign Object or Error Warning - light is on with red color

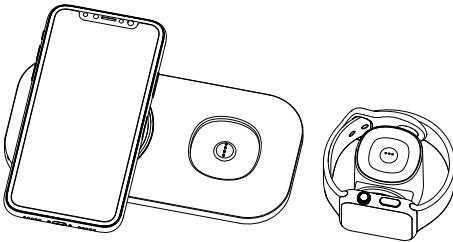

3.2. Apple Watch Charger

Three LED indicators on the Apple Watch Charger indicate 30%, 60%, 100% of the battery respectively.

Note: It refers to the battery of Apple Watch Power Bank, but not the Apple Watch Charger.

4. Apple Watch Power Bank

The Apple Watch charger can be detached and used alone as a power bank.

Attention:

1. Please make sure that the power adapter used meets the requirement. If the power is insufficient, the product may

- not work normally.
2. Please do not place any metal or magnetic object between your phone and charger, otherwise the charger will not work.
3. Equip your device with a Qi receiver if it is not Qi-enabled out of the box.
4. Only after the Apple Watch is fully charged can the power bank begin to charge.
