Dear Sir/Madam:

Enclosed please find an application for a Class II Permissive Change equipment certification of Model 9650; FCC ID: 2A22J9600 under Rule Part FCC 15.247. This module is identical to Espressif's ESP32SROOM32E module, just incorporated into a host device model 9650. Model 9650 will be used in portable exposure conditions. The radio is unchanged when integrated into the host and is only supporting BT FHSS functionality and the WIFI radio turned off. The Bluetooth radio is being used to communicate with other TSI supported accessories.

Further details and supporting documents are attached.

Sincerely,

Daniel Happe
