

NEXC2 User Manual

Product Information

Brand: SCOSCHE

Product name: Dashcam

Product model: NEXC2

Accessory List

Main Unit

USB Power Cord

Car Charger

Holder

Pry Bar

Cable Clips

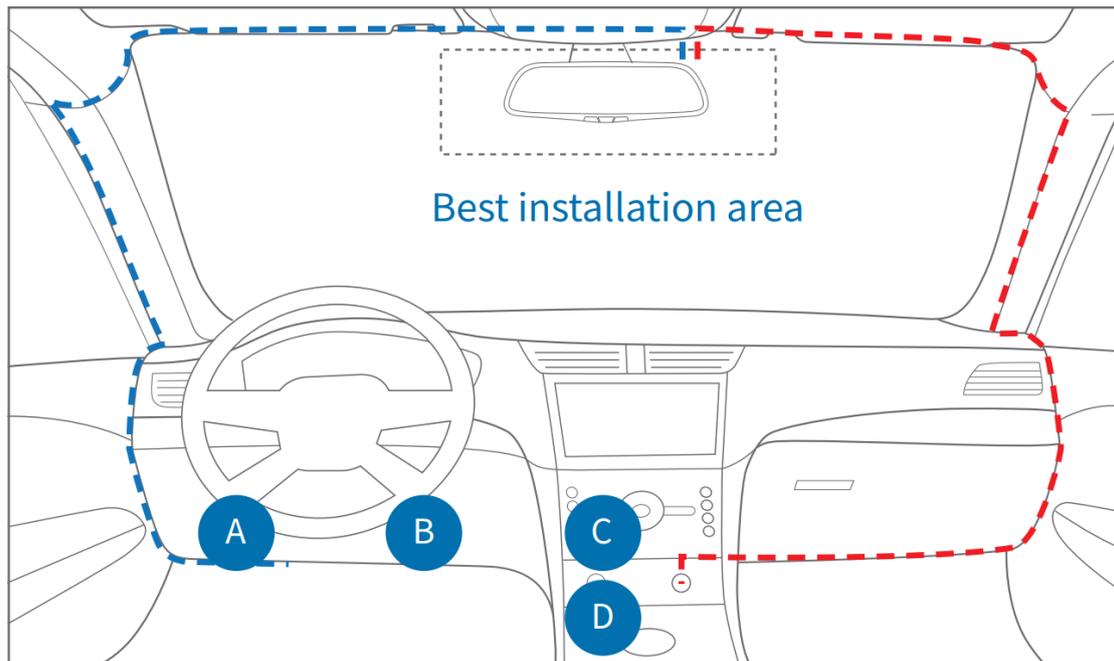

Structure & Button

1. Holder Slot
2. Heat Dissipation Hole
3. TF Card Slot
4. Speaker
5. MIC
6. RESET
7. Front Camera
8. Rear IR Camera

9. WIFI Indicator Light

10. Working Indicator Light

11. Power Button

Power Line Wiring

- Power supplied by car charger:

Please refer to the red dotted line.

If you use USB line to connect the device with the car charger, please choose the 2.1A output. The undercurrent could lead to malfunction.

Specification of car charger:

Input: 12V

Output: 5V/3.6A

Device Instruction

- Switch On/Off and Parking Monitor

1. Switch On/Off

The device will switch on/off according to the start-up and stall of the vehicle. You can turn the device off by pressing the power button for more than 3 seconds.

2. Parking Monitor

The device is stalled with 500mAh battery. When abnormal vibration is detected, the device will automatically wake up and record a monitoring video and then shutdown.

You can use proper charger to prolong the monitor period.

Attention:

(1) When charging with a car charger, please do not turn on the device when the vehicle is cut-off in order to save battery power

(2) A few types of car lighter are sustainable power type. Please switch on/off by hand

(1) Blue light on: connected to the App.

Attention

(1) The storage temperature should be between -20°C to 70°C

(2) Improper change of battery could lead to explosion. Please use same type of battery on the device.

(3) Do not use irritating chemical solvents for cleaning. Slightly wet paper tissue or soft cloth are suggested.

(4) For environmental protection, please do not throw away or into fire in case of explosion.

(5) Do not try to detach the machine or repair by yourself. If the device failed, please call our customer service.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired

operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

FCC ID: IKQNEXC2

IC Caution:

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference,
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class [B] digital apparatus complies with Canadian ICE-003.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.

Caution:

Operating Frequency Range band 5150-5350 MHz "for indoor use only."
