RE: Letter of Similarity

FCC ID: 2BAAIWT-2041SM-US00
Model(s): WT-2041SM-US00 and 2041DC

To whom it may concern,

The above-mentioned model number variants are both electrically identical in RF circuitry, with the only difference being changes in the main board layout and an updated power supply design and improved power filtering.

Sincerely,

Robert Olstad
Sr. Director Product Management
Airvine Scientific Inc.
