A close-up photograph of a network card's printed circuit board (PCB). The central component is a black integrated circuit (IC) labeled "ECONET EN7516GT 2138-CFSH ACMSLN9F". To the right, there is a smaller black IC labeled "winki W632GU 6134AR 14936". The PCB is green with numerous surface-mount components, including resistors (e.g., R180R196, R153, R123, R416, R415, R417, R418, R421, R424, R425, R426, R428, R427, R429, R430, R431, R432, R433, R434, R435, R436, R437, R438, R439, R440, R441, R442, R443, R444, R445, R446, R447, R448, R449, R450, R451, R452, R453, R454, R455, R456, R457, R458, R459, R460, R461, R462, R463, R464, R465, R466, R467, R468, R469, R470, R471, R472, R473, R474, R475, R476, R477, R478, R479, R480, R481, R482, R483, R484, R485, R486, R487, R488, R489, R490, R491, R492, R493, R494, R495, R496, R497, R498, R499, R500) and capacitors (e.g., C101, C102, C103, C104, C105, C106, C107, C108, C109, C110, C111, C112, C113, C114, C115, C116, C117, C118, C119, C120, C121, C122, C123, C124, C125, C126, C127, C128, C129, C130, C131, C132, C133, C134, C135, C136, C137, C138, C139, C140, C141, C142, C143, C144, C145, C146, C147, C148, C149, C150). The board also features a gold-plated edge connector and a small gold-plated component in the bottom left corner.
