portable lamp & speaker

whats included:

- Portable Lamp & Speaker
- USB-C Charging Cable

using the speaker lamp:

- Place the **speaker lamp** on a sturdy flat surface.
- Press power button on the back to turn the **speaker lamp** on/off.
- Press and hold the light button for 2 seconds to turn the light on and off independently.
- Press the light button to cycle through the three temperatures.
Order of presses: warm light, cool light, RGB light.

connecting via Bluetooth:

- Press the power button to turn on the **speaker lamp**.
- Press the Bluetooth button to enter pairing mode. The indicator light will flash slowly.
- Use the Bluetooth settings on your device to pair with **Lamp Speaker**. When the **speaker lamp** has successfully paired, the indicator light will be solid.
- Use the volume dial on the front of the **speaker lamp** to adjust volume.
- Press the play/pause button to play/pause as needed.
- Double-click the play/pause button to skip to the next song.
- Triple-click the play/pause button to skip to the previous song.
Note: when the **speaker lamp** is turned on and not connected to Bluetooth, it will automatically shut off after 10 minutes.

front

charging the speaker lamp:

- The **speaker lamp** will require approximately **3** hours to fully charge.
- To charge, be sure to use the included USB-C cable. Plug the USB-C tip into the port of the **speaker lamp**. Plug the USB-A tip into a power supply of at least DC 5V 1A
warning: please use UL compliant power supply.

troubleshooting:

- If the **speaker lamp** is not working, charge the **speaker lamp** fully and try again.
- If the **speaker lamp** is not working correctly, turn it on/off to restart.
- If the **speaker lamp** won't charge, make sure the supply works, is 5V 1A, and not damaged.
- If the **speaker lamp** makes no sound or does not show as an available device, make sure it is not paired. If so, unpair the device and re-pair the desired device.

safety:

- Do not use near any water source
- Do not modify or repair this device
- Do not use in high temperatures or extreme weather
- Do not use chemical detergents to clean your device, use a soft dry cloth
- Do not expose to fire or excessive temperatures, the operating temperature should not exceed 95°F (35°C)
- Do not look directly at the light source to avoid harming your eyes
- Children should be supervised when using these products

FCC ID:2A023-SPKL1 Style number: SPKL1 DPCI: 074-14-4291 Input: 5V=1A Made in China

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
