Operational Description

\- Features of the MB400 -

With compact and lightweight body combined with high performances,
this printer prints barcodes clearly on various types of thermal paper.
This printer is the thermal printer which publishes a bar code label etc.

- Excellent Printing Performance -
  Not only does this printer print barcodes clearly, but it can
  also enlarge and print various types of fonts and Kanji characters
  in a free layout.

- Durable and Easy to Use -
  This printer is also superb in durability, as it has been
  designed with the premises of printing barcodes.
  Also, special consideration has been taken so that the printer can
  be easily cleaned everyday.

- Dispenser Function -
  As a portable printer, this printer can easily print and
  dispense labels to enable the application of labels at site.

- Interface -
  Carry as an interface Bluetooth which is a 2.4GHz highly advanced
  smallness electric power data-communications system as a radio
  interface besides RS-232C, and TTL and IrDA.

  Bluetooth's feature

   This unit has a second generation low power data communication system of Bluetooth
   as a 2.4GHz radio interface.

   With the Bluetooth's feature of high interconnectivity, data can be exchanged with any
   Bluetooth enabled handheld terminals, barcode scanners, or PDA's.

   Connection is made by specifying the BD address from devices like handheld terminal.

   With the use of a method called Frequency Hopping, Bluetooth interface is strong
   against noise and interference and has high confidentiality.
