

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. On a blue textured surface, there is a white circular housing cap, a white cable with a connector, a circular copper-colored component, and a small green circuit board with a red component. A black ruler with white markings is placed vertically and horizontally for scale.
Solder Board-Component View 1	 A photograph showing a soldered board-component. A green circuit board is connected to a circular copper-colored component via two black wires. The assembly is placed on a blue textured surface next to a black ruler with white markings for scale.

Solder Board-Component View 2	 A photograph showing a circular green printed circuit board (PCB) component with a red rectangular component and a copper ring attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is labeled with 'WPCIS-1L CNA' and '2021.03.06'.
Solder Board-Component View 3	 A photograph showing the underside of the circular green PCB component. The component is populated with various electronic components, including a large red rectangular component labeled 'DC/DC MP 40241100V'. The PCB is labeled with 'WPCIS-1L CNA' and '2021.03.06'. Two black wires are connected to the component.
