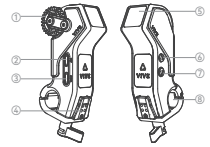
FIZTrack

USB Cable

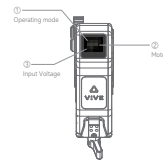
1. Product Function Description



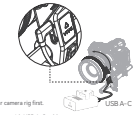
① M0.8 Gear ② FIZ Connector ③ USB Connector ④ Battery Plate Port

⑤ OLED Screen ⑥ Up button ⑦ Down button ⑧ Φ15mm Rod Opening

2. Encoder Mode / Encoder



3. How to install



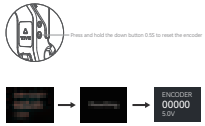
① Install FIZTrack on your camera rig first.

② Connect FIZTrack to Rover with USB A-C cable.

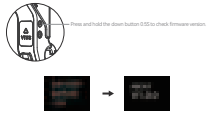
USB A-C

4. Basic Operation

① DownButton

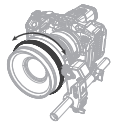


② UP Button



5. How to reset the encoder

① Rotate the lens to the closest focus / widest aperture / widest zoom



② Down Button

Specifications

Screen size	OLED 0.52"
Input voltage	5 V – 15.8 V
Communication frequency	2.4000 – 2.4835 GHz
Input voltage of external battery	7.4 V – 8.2 V

Service Warranty

Please keep your original receipts. These are required for warranty service.

After-sale warranty terms:

1-Year Warranty: Within 1 year from the date of purchase, defective product which is not caused by customer induced damage is eligible for repair / replacement under warranty. Defective product which are out of warranty period or damaged due to customer induced damage may be repaired / replacement at a cost to the customer. In the event that the minimum warranty period stipulated by the local country law where the product is sold is longer than one year, then such minimum warranty period shall prevail.

This warranty does not cover:

1. Defect caused by users' violation of the "Warnings" and "Intended Use".
2. The product labeling or DN label is removed or defaced in any way.
3. The product is serviced or repaired by anyone other than our company or the service agency authorized by our company.

FCC Compliance Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.
[Warning]
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
[Note]
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and can radiate radio frequency energy, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment to an outlet in a different circuit than the receiver is connected to.
Consult the dealer or experienced radio/TV technician for help.
RF Warning Statement
This device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
FCC ID:2AZWI-4180LEQI

ISED Statement
English:This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).
Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.
This equipment complies with Canadian CAN ICES-3 (B)/NMB-3(B).
French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exempts de licence d'Innovation, Sciences et Développement économique Canada.
L'exploitation est soumise aux deux conditions suivantes:
(1) Cet appareil ne doit pas provoquer d'interférences.
(2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.
This equipment complies with IC RSS-102 radiation exposure limits of 3.0(c) (vmb) - 3.0(c). This device meets the exemption from the routine evaluation limits in section 2.5 of RSS-102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.
cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 de RSS-102 et conformité avec RSS 102 RF exposition, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.
This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.
Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.
RF Exposure
The device has been evaluated to meet general RF exposure requirement. The device can be usedin portable exposurecondition without restriction.
L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. L'appareil peut être utilisé en condition d'exposition portable sans restriction.
