03

How to Use

1. Turn On/Off

2. Bluetooth Disconnect

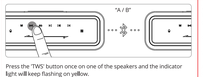
Turn on the speaker and your device's Bluetooth settings, search for "Tronsmart Mega pro' then tap to connect.

Press and hold the ' M ' button for 3 seconds to disconnect Bluetooth.

3. Pair Two Mega Pro Bluetooth Speakers

Turn two speakers on and confirm they're not paired any Bluetooth devices.

04



Press the 'TWS' button once on one of the speakers and the indicator light will keep flashing on yellow.

After two speakers have paired with each other successfully, you will hear a sound prompt and the indicator lights will go on yellow.

4. Disconnect Two Speakers

Press the 'TWS' button once to disconnect two speakers from each other.

5. Three Equalizer Audio Effects Swithcing

Tap the 'EQ' button to switch three equalizer audio effects between Balanced, 3D, and Deep Bass in turn.

Deep Bass (default)	☼	Without an indicator light
Vocal	☼	Green light
3D	☼	Blue light

6. NFC Streaming

Confirm Bluetooth & NFC functions are enabled on your device, and then put the device on the NFC area of the speaker to pair automatically. If you need to disconnect NFC streaming, put the device back to the area again to disconnect.

05

7. USB-A Power Bank Function

This speaker carries a USB charge out function that will automatically detect your device and begin to charge it when the charging cable is plugged into the USB-A port. The output power is up to DC 5V/1A. In order to maintain stable music playing performance, it's not recommended to use the music and power bank function at the same time.

8. Aux-in Mode

Simply connect the speaker with your non-Bluetooth device via the 3.5 mm audio jack cable.
Note: After plugging in an audio cable, the speaker will automatically switch to Aux-in mode.

9. TF/Micro SD Card Slot Mode

The speaker will play the music from your TF/Micro SD card when plugging the card into the slot. The maximum supported memory is 32 GB.

10. USB Flash Drive Mode

The speaker will play the music from your USB flash drive when plugging the USB into the USB-A port. The maximum supported memory is 128 GB.

11. Reset to Factory Default Settings

Press and hold the 'M' button for 8 seconds until a sound prompt is heard, which means that the speaker has been reset to factory default settings.

12. Auto Power Off

The speaker will power off automatically after 1 hour if it does not pair with any device through Bluetooth or does not play any sound after pairing. When in low battery, the speaker will power off automatically as well.

13. Charging

☼ Red light	Charging
☼ Goes off	Charging completion

06

Care & Maintenance

Do not use any form of detergents or cleaning material to clean the product as any type of chemical may make this device unusable. Do not disassemble this product. It contains no user serviceable parts. Do not drop or jump on it and treat it with care for the best performance. Keep the product in a dry location. Dust, dirt & moisture from humidity can accumulate on the body of the product if kept at an unfriendly place. Do not dispose this product in fire or batteries may explode or leak.

Warranty Information

Your "Tronsmart Mega Pro Bluetooth Speaker', is warranted to the original owner for 12 months from the date of purchase against defects in material and workmanship under normal use and service. Tronsmart is not responsible for the accidental use of this product and its liability will not exceed the purchase price of the product. If you have any problems while using the product, please do not hesitate to contact our customer support team at **support@tronsmart.com**.

FCC STATEMENT

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
–Reorient or relocate the receiving antenna.
–Increase the separation between the equipment and receiver.
–Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
–Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
