Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) populated with various electronic components. The components include several integrated circuits (chips) and two large electrolytic capacitors labeled '680 20V H43'. The board is positioned next to a metal ruler with millimeter markings for scale. The background is a solid blue surface.
Solder Board-Component View 8	 A photograph of a rectangular metal component, likely a heat sink or a mounting plate, with four small circular holes at its corners. The component is placed on a blue surface next to a metal ruler with millimeter markings for scale.

Solder Board-Component View 9	 A photograph of a small green printed circuit board (PCB) component, labeled '42-69-2322' and '63160-91-911', mounted on a blue surface. The component features a central integrated circuit, several resistors, and two white plastic connectors. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters.
Solder Board-Component View 10	 A photograph of the same green PCB component from a different angle, showing the underside. It features a central integrated circuit, resistors, and a circular solder pad. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters.
