

CVM-WM100

UHF 48-Channels Wireless Microphone

USER MANUAL

Foreword

Thanks for purchasing the COMICA WM100 UHF wireless microphone.

WM100 utilizes UHF wireless technology and LCD lattice screen, it comes with totally 48 channels and 16-levels adjustable volume, built-in with 'Adjustable RF Strength', 'Local Audio Testing', 'Real-time Audio Monitor' functions, etc., which takes you more professional and convenient recording;

To ensure the security of the product, please carefully read the user manual, correctly install and operate the item.

Main Features

- . 48 Channels for Multiple Devices Work Together;
- . Working Distance Up to 100m; (100m in Open Area, 60m in Barrier Area)
- . Local Audio Test in Transmitter End;
- . Real-time Audio Status Monitor in Receiver End;
- . Real-time Audio Monitor;
- . 16-levels Adjustable Volume;
- . RF Signal Strength Adjusted in Transmitter End;
- . Muting Mode;
- . Lattice LCD Display, High Resolution;

Notice

- ⚠ The antenna will affect working distance, be sure to protect it and avoid any man-made damage;
- ⚠ Working distance will be affected by surround environment, make sure the background is open with no interference, and turn off the device's WIFI during usage;
- ⚠ RF strength is advised to set to 'Low' for short working-distance request, which can help decrease power dissipation and increase power duration;
- ⚠ While working with smartphone, one must purchase the TRS-TRRS audio cable adapter separately;
- ⚠ Take notice of the batteries' 'positive and negative poles' to avoid reverse, otherwise the product maybe damaged;
- ⚠ Keep the product in dry environment;
- ⚠ Don't expose the product or work with it in Rain to avoid short-circuit;

Function Button Instruction

Power/Muting Button	Long Press	Power On/Off
	Short Press	Muting (Unlocking Mode)
Set Button	Long Press	Locking/Unlocking Function Setting (Unlocking Mode)
	Short Press	Function Selection (Unlocking Mode)
+ Button	Short Press	Function Selection
- Button	Short Press	Function Selection

Indication Light Instruction

Green Light Keeps On	Work Normally
Green Light Flicker (Only for Receiver)	Channels Not Match
Red Light Keeps On	Muting Mode
Red Light Flicker	Low-power

Installation and Usage

Transmitter

Step 1: Install Batteries into Battery Holder by following the '+' and '-' Icon, and clip the waist holder onto back of transmitter ;

Step 2: Long-press the power button to open the transmitter;

Step 3: According to your own requirement, to choose to connect the Mic cable onto 'Line in' or 'Mic' Input ;

Step 4: Record with the Mic , and pay attention to the 'Audio Status Indication Bar' to check if the transmitter works ;

Volume dynamic display bar

Step 5: Refer to the Function Button Instruction to set the relative functions,
for example: CH Adjustment, RF Strength Adjustment;

A.Unlock:

Lock

Long press SET button

Unlock

B.CH Adjustment:

Short press SET button

Adjust CH channel

Adjust the CH channel by - + button

C.RF Strength Adjustment:

Short press SET button

Adjust RF

Adjust the RF signal strength by - + button

Receiver

Step 1: Install the Receiver onto the device via cold-shoe, and connect one end of the audio cable into Output socket, connect another end of the audio cable into device's audio input socket; And plug your earphone into the audio monitor's socket for audio monitor if you need;

Step 2: Set CH to match the channels, and adjust VOL to set the volume until you're satisfied;

A.Unlock:

Lock

Long press SET button

Unlock

B.Set CH to match the channels:

Short press SET button

Adjust CH channel

Adjust CH by - + to match the Transmitter

👉 The Green Light will keep on after channel matched.

C.Set the volume until you're satisfied :

Short press SET button

Adjust VOL

Adjust volume by - + button

Step 3: Go for the normal audio recording.

Specification

Transmitter TX

Channels	48
Wireless Frequency	520.000MHz~534.100MHz
Signal / Noise	> 65dB
Antenna	1/4 Wavelength Antenna
Transmitting Power	10dBm / 15dBm
Stray Radiation	< -60dBc
Sound Delay	< 20ms
Audio Distortion	< 0.5%
Audio Input Socket	3.5mm Socket
Batteries	AA Batteries x 2pcs
Size	111.5 x 65 x 25.3mm
Working Temperature	0℃ ~ +50℃
Storage Temperature	-20℃ ~ +60℃

Receiver RX

Channels	48
Wireless Frequency	520.000MHz~534.100MHz
Signal / Noise	> 65dB
Antenna	1/4 Wavelength Antenna
Receiving Sensitivity	95dBm
Sound Delay	< 20ms
Audio Distortion	< 0.5%
Frequency Range	20Hz ~ 18KHz
Audio Output	3.5mm Port
Batteries	AA Batteries x 2pcs
Size	111.5 x 65 x 25.3mm
Working Temperature	0℃ ~ +50℃
Storage Temperature	-20℃ ~ +60℃

FCC statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference, and
- 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
