To Federal Communications Commission,

The inhibited channels for the McMurdo F1 DSC transceiver are channels 2, 4, 60, 62.

The permitted channel set is an integral part of this radio. Confirmation that the channels specified in 47 CFR part 80 are selected is by means of an LED indicator (US mode).

This is the default setting for US markets.

A handwritten signature in black ink, appearing to read "Ole Hansen".

Ole Hansen  
Development Manager, VHF
