Attn: Director of Certification

**Tune-Up Procedure for Licensed Transmitter**

**FCC ID: 2AV57GDSAA2**

**IC: N/A**

**Model (HVIN): GDSAA2**

Dear Director of Certification,

**Note:** End users are not required to perform any additional tune-up procedures. All required tune-ups and measurements are performed at the factory during production. The products are factory calibrated. The carrier power at the antenna connector inside the products is calibrated according to the following specifications:

- Class E2 (27 dBm  $\pm$ 3 dB) for GSM850 8-PSK, EGSM900 8-PSK
- Class E2 (26 dBm  $\pm$ 3 dB) for DCS1800 8-PSK, PCS1900 8-PSK
- Class 3 (24 dBm  $\pm$ 1/-3 dB) for WCDMA bands
- Class 3 (23 dBm  $\pm$ 2 dB) for LTE-FDD bands

**Statement:**

The product does not contain transmission components that are user-tunable. As a result, there is no need for end users to perform any tune-up procedures for operation. Therefore, no specific tune-up instructions are provided in this document.

Sincerely,

Dated: April 25, 2025
