

Request for Class II Permissive Change

FCC ID: N6C-SDMAN

Date: October 25, 2017

TO: Federal Communication Commission

This is to request a Class II permissive change for FCC ID: N6C-SDMAN, DTS/NII originally granted on 11/14/2014, DSS originally granted on 08/20/2012.

This time, the module is used in the portable host device therefore we should perform SAR testing with the host device.

There is no hardware change for the module that using one PCB antenna (Antenna type was same as before, antenna gain was more than original report).

Besides the SAR testing, the radiated spurious emission and band edge also have be assessed again.

The module's turn up procedure was same as before.

Sincerely,

Name: Lucas Wang
