

Correspondence Summary Q & A

September 23, 2004

SUBJECT: MICRO-STAR INTERNATIONAL CO., LTD. - FCC ID: I4L-MS6852

TCB Question: Simultaneous operation of the Bluetooth and 802.11bg LAN radios.

Applicant Answer:

Yes , it is the simultaneous operation for BT and RLAN .
so we got the radiated data for the simultaneous operation of BT and RLAN when we it
be tested.

but it has two separate test report and data , one is for BT ,another one is for RLAN .
[please see page 26~31 for 048L023FI Report](#) and [page 19~21 for 048L025FI Report](#).
